

## Environment, Safety and Health Management System

# ES&H Compliance Guideline

## ESH-048

# Forklift Trucks

---

### An Important Note

1. Using this guideline is subject to the conditions in our [Disclaimer](#).
2. This document (including the legislative references) is regularly updated. Please check that this is the current, up-to-date version before using the information below. **Highlighted text** indicates changes incorporated in the latest update of this document.

8.6. Guidance Notes and Publications	16

## 1. Scope

---

This Guideline covers the requirements associated with the purchasing and hire, work areas, operation, refuelling, inspection and maintenance of forklifts. It also includes requirements related to the types of forklifts to be used in specific circumstances (eg. indoors, in hazardous areas, etc).

## 2. Objectives

---

To ensure that all forklifts are of the correct type for the work to be done, that they are all maintained in good working order and that all legislative requirements are met.

## 3. Definitions

---

None.

## 4. Issues to be Addressed

---

### Please Note

This section of the ES&H Guideline needs to be expanded and further developed by users into a full operational procedure. This is done by incorporating details to reflect your company's structure, work process and local circumstances; legislative and other requirements; and technical details from publications and guidance notes. Assistance with developing procedures is available from Management Systems Australia.

The major issues addressed in this guideline are as follows:

### 4.1. Purchasing and Hire

Purchasing and hire specifications for forklifts (refer ES&H Guideline [ESH-021](#)) shall take into account at least the following:

- The work which needs to be carried out, including potential loads;
- The selection of suitable forklifts and attachments;
- The available controls and whether they are suitable for the intended tasks;
- The maintenance requirements;
- The area where a forklift needs to operate (eg. hazardous areas, etc.).

Purchasing and specifications shall include the safety features required for the forklift. This shall include, as applicable:

- Warning devices such as forward and reversing beepers, lights, rotary flashing lights, air horns, etc);
- FOPS (Falling Objects Protective Structure);
- Seat Belt;
- Load chart for safe handling of loads.

## 4.2. Forklift Operators

The following requirements shall apply to personnel assigned to operate forklifts:

- Forklift operators shall be properly trained to operate the specific forklifts they are required to operate (refer ES&H Guideline [ESH-003](#))
- Such personnel shall also hold the appropriate certificate of competency in accordance with the National Guidelines for Occupational Health and Safety Competency Standards for the Operation of Loads-shifting Equipment and Other Types of Specified Equipment (refer Section 8 of this ES&H Guideline). In addition, where required by the authority (e.g. in WA), forklift operators shall hold an appropriate National Licence, in accordance with the requirements of the National Standard for Licensing Persons Performing High Risk Work.
- Forklift operators shall undergo a health assessment (refer ES&H Guideline [ESH-081](#)).

## 4.3. Daily and Pre-operation Inspections

Work instructions shall be prepared and issued for the daily and pre-operation inspection of forklifts. This shall include at least:

- Inspection of carriage and fork and lifting assembly, hydraulic system for possible leaks, engine for fuel or oil leaks, tyres, overhead guard and forklift body overall.
- Testing of brakes, forward and reverse movement, steering, lifting and tilting controls, and warning devices (horn, flashing lights, brake lights, turning lights, reversing beepers)
- Checking of capacity rating, radiator water, battery water, fuel level, brake fluid, hydraulic fluid level and instrumentation.
- Inspection of the work area.

Work shall not commence unless the forklift is in proper working order and the work area is clear of obstacles. Any deficiencies or problems shall be recorded, reported and addressed (refer ES&H Guidelines [ESH-009](#) and [ESH-028](#)).

## 4.4. Forklifts Operation

Areas where forklifts operate shall be:

- Clearly marked and sign posted (refer ES&H Guideline [ESH-032](#));
- Kept free of obstructions;
- Provided with separate areas for pedestrians and zebra crossings or walkways;
- Posted with speed limits and other traffic signs.

Where possible, pedestrian access to areas where forklifts operate shall be restricted by means of barriers.

Company personnel shall be instructed to, whenever possible, stay away from forklift operational areas.

Personnel who need to be present at night in areas where forklifts operate frequently, shall be issued and shall wear high visibility safety garments, in accordance with Australian Standard AS 4602 (refer section 8 below).

Forklift operators shall:

- Use the forklift only for the purpose for which it is intended.
- Forklifts must not be used to lift persons, unless it is a forklift specifically designed and equipped for this purpose.
- Where applicable, use the appropriate Personal Protective Equipment (refer ES&H Guideline [ESH-052](#))
- Operate the forklifts safely and in accordance with their training and observe all operation instructions (eg. speed limits)

Forklifts which emit fumes (eg. diesel) must not be used indoors (eg. warehouse, cold room, etc).

Empty drums shall not be used for lifting heavy materials.

Only flame-proof forklifts shall be used in hazardous areas (refer ES&H Guideline [ESH-058](#)).

## 4.5. Maintenance

All forklifts shall be maintained on a regular basis. This shall include:

- Maintenance work to be done by qualified personnel
- A controlled maintenance schedule
- Specific work instructions for maintenance work.

## 4.6. Refuelling and Battery Charging

Specific Work Instructions shall be prepared and issued for the refuelling of different types of forklifts. These work instructions shall preferably be a sign mounted at the refuelling point.

LP Gas and diesel refuelling areas shall be designated as hazardous areas, in accordance with ES&H Guideline [ESH-058](#).

Appropriate safety precautions shall be exercised when charging forklift batteries. These shall at least include precautions related to:

- Spillage of electrolyte (refer ES&H Guideline [ESH-024](#))
- Fire-prevention (refer ES&H Guideline [ESH-045](#))
- Proper ventilation (refer ES&H Guideline [ESH-090](#))
- Electrical safety (refer ES&H Guideline [ESH-062](#))

# 5. Responsibilities of Personnel

---

The following personnel should assume the primary responsibility for the activities covered by this guideline:

- Maintenance Manager
- Warehouse Manager (or other managers responsible for the operation of forklifts)
- Forklift Operators

- Maintenance personnel

## 6. Supporting Documents

---

### Work Instructions

Specific work instructions for the inspection and maintenance of each type of forklift

### Forms

Forklifts Maintenance Schedule  
Forklifts Inspection Schedule  
Forklifts Inspection Sheets.

### 8.1. Acts and Regulations

#### Commonwealth

<http://www.comlaw.gov.au>

Occupational Health and Safety Act 1991 – Part 2 Div 1 (amended November 2009)  
(amended January 2010)

Occupational Health and Safety (Safety Standards) Regulations 1994 – Part 5, and Part 12 Div 12.5 (amended December 2008)

#### New South Wales

<http://www.legislation.nsw.gov.au>

Gas Supply Act 1996 (amended May 2009) (amended June 2009)

Dangerous Goods (Gas Installations) Regulation 1998 – Part 3

Occupational Health and Safety Act, 2000 - Part 2, Division 1 (amended October 2009)

Occupational Health and Safety Regulation, 2001 - Chapter 5 Parts 5.1, 5.2, 5.3 and 5.4 (amended September 2009) (amended February 2010)

Occupational Health And Safety Amendment (National Code Of Practice And National Standard For Licensing) Regulation 2009 (commenced September 2009)

Protection of the Environment Operations Act 1997 - Chapter 5, Part 5.6 (amended December 2009)

Protection of the Environment Operations (Clean Air) Regulation 2002 - Parts 4 and 5 (amended November 2009)

Protection of the Environment Operations (Clean Air) Amendment (Vapour Recovery) Regulation 2009 (commenced November 2009)

### Victoria

[www.legislation.vic.gov.au](http://www.legislation.vic.gov.au)

Dangerous Goods Act 1985 (amended January 2010)

Dangerous Goods (Storage and Handling) Regulations 2000 (amended January 2009)

Electricity Safety Act 1998 (amended December 2009) (amended January 2010)

Electricity Safety Amendment Act 2007 (remaining provisions commenced December 2009)

Electricity Safety (Installations) Regulations 1999 - Parts 4A Division 2 (amended January 2010)

Equipment (Public Safety) Act 1994 - Part 2 (amended August 2006)

Equipment (Public Safety) Regulations 2007 – Parts 2 to 8 and Schedule (commenced July 2007)

Gas Safety Act 1997 (amended December 2009) (amended January 2010)

Gas Safety (Safety Case) Regulations 2008 (commenced January 2009)

Occupational Health and Safety Act 2004 (amended January 2010)

Occupational Health and Safety Regulations 2007 – Parts 3.5, 3.6 and 6.1, and Schedule 3 (amended December 2007)

### Queensland

<http://www.legislation.qld.gov.au/Legislation.htm>

Coal Mining Safety and Health Act 1999 (amended September 2009) (amended November 2009)

Coal Mining Safety and Health Regulation, 2001 – Chapter 2 Part 10 (amended July 2009)

Mining and Quarrying Safety and Health Act 1999 (amended September 2009) (amended November 2009)

Petroleum and Gas (Production and Safety) Act 2004 (amended September 2009) (amended December 2009)

Petroleum and Gas (Production and Safety) Regulation 2004 – Chapter 1, Part 3 and Chapter 5, Part 3 (amended September 2009) (amended December 2009)

Petroleum and Gas (Production and Safety) Amendment Regulation (No. 1) 2010 (commenced December 2009)

Workplace Health and Safety Act 1995 - Part 3, Division 2 (amended September 2009) (amended October 2009) (amended November 2009 - remaining amendment provisions commenced December 2009 and January 2010)

Workplace Health and Safety Regulation 2008 – Parts 3 and 8, and Schedule 5 (amended September 2009) (amended October 2009)

### Western Australia

Occupational Safety and Health Act 1984 (amended December 2009)

Occupational Safety and Health Legislation Amendment Act 2009 (commenced December 2009)

Occupational Safety and Health Regulations 1996 - Part 4, Division 4 (amended February 2010) (to be amended March 2010)

Occupational Safety and Health Amendment Regulations (No. 3) 2009 (will commence March 2010)

Occupational Safety and Health Amendment Regulations (No. 7) 2009 (commenced February 2010)

### **South Australia**

<http://www.legislation.sa.gov.au>

Occupational Health, Safety and Welfare Act 1986 (amended January 2008)

Occupational Health, Safety and Welfare Regulations 1995 - Parts 3 and 6 1995 (amended August 2009)

### **Tasmania**

<http://www.thelaw.tas.gov.au/>

Dangerous Goods (Safe Transport) Act 1998 (amended and re-named July 2009)

Dangerous Goods (General) Regulations 1998 - Part 8 (commenced January 1999) (repealed July 2009)

Dangerous Substances (Safe Handling) Act 2005 (amended July 2009)

Dangerous Substances (Safe Handling - Transitional) Regulations 2009 (commenced July 2009)

Dangerous Substances (Safe Handling) Regulations 2009 (amended February 2010)

Dangerous Substances (Safe Handling) Amendment Regulations 2010 (commenced February 2010)

Environmental Management and Pollution Control Act 1994 (amended September 2009)

Environmental Management and Pollution Control (Environmental Infringement Notices) Regulations 2006 (amended August 2007)

Environmental Management and Pollution Control (Miscellaneous Noise) Regulations 2004 – Part 2 (commenced July 2004)

Workplace Health and Safety Act 1995 - Part 3 (amended December 2009)

Workplace Health and Safety Amendment Act 2009 (assented December 2009)

Workplace Health and Safety Regulations, 1998 - Part 3, Division 3, Schedule 8 and 9 (repeal postponed in November 2009 till January 2011)

### **Northern Territory**

<http://notes.nt.gov.au/dcm/legislat/legislat.nsf/341afd7c15dc4692565a6000e3509?OpenView>

Petroleum Act 1984 (amended September 2009)

Petroleum (Occupational Health and Safety) Regulation 2001 – Parts 8 and 9 (amended September 2009)

Workplace Health and Safety Act 2007 – Part 5 Division 1 (amended September 2009)

Workplace Health and Safety Regulations 1992 - Part 10 and Schedule 1 (amended June 2008)

### **Australian Capital Territory**

<http://www.legislation.act.gov.au/>

Occupational Health and Safety Act 1989 (repealed October 2009)

Occupational Health and Safety (Certification of Plant Users and Operators) Regulations 2000 (repealed October 2009)

Occupational Health and Safety (General) Regulation 2007 (repealed October 2009)

Scaffolding and Lifts Act 1957 (amended April 2004)

Scaffolding and Lifts Regulations 1957 – Part 11

Work Safety Act 2008 – Part 2 (provisions commenced October 2009)

Work Safety Legislation Amendment Act 2009 (assented September 2009, provisions commenced October 2009)

Work Safety Regulation 2009 - Part 7 Division 7.12 (commenced October 2009)

#### **New Zealand**

<http://www.legislation.govt.nz/>

Health and Safety in Employment Act, 1992 (commenced April 1993) (amended December 2004)

Health and Safety in Employment Regulations, 1995 – Part 2 (amended October 2003)

## **8.2. Statutory Codes of Practice**

### **Commonwealth**

<http://www.safeworkaustralia.gov.au/>

- National Code of Practice for Storage and Handling of Workplace Dangerous Goods, March 2001 – Appendix 9

- Approved Code of Practice for Operator Protective Structures on Self-Propelled Mobile Mechanical Plant
- Approved Code of Practice for Training Operators and Instructors of Power Industrial Lift Trucks

### **8.3. Management System Standards**

<http://www.saiglobal.com/shop/Script/search.asp>

AS/NZS ISO 9001-2008 Quality Management Systems - Requirements (Sections 6.3, 7.1, 7.5 and 7.6)

AS/NZS 4801- 2001	Occupational Health and Safety Management Systems – Specifications with Guidance for Use (Section 4.4.6)
AS 4581-1999	Management System Integration – Guidance to Business, Government and Community Organizations (Section 7)
AS 4292.1-2006	Rail Safety Management - Part 1: General Requirements (Section 6)
	<a href="http://www.workcover.vic.gov.au/">http://www.workcover.vic.gov.au/</a>
SafetyMAP	Auditing Health and Safety Management Systems, 4 <sup>th</sup> Edition – Elements 3.9 and 3.10
	<a href="http://www.comcare.gov.au">http://www.comcare.gov.au</a>
Comcare	National Self Insurer OHS Audit Tool, 2007 – Element 3.10

## 8.4. Australian and New Zealand Standards

<http://www.saiglobal.com/shop/Script/search.asp> (for Australian standards)

<http://www.standards.co.nz> (for New Zealand standards)

Please Note Standards which are referenced in legislation (i.e. acts and regulations) are shown in underlined text. In addition, it should be noted that many acts and regulations, in various jurisdictions, contain provisions that certain matters are to be in accordance with the “appropriate Australian Standard” or “relevant Australian standard” without specifically nominating a standard by number or title.

## 8.5. International Standards

<http://www.iso.ch/iso/en/ISOOnline.frontpage>

<http://www.saiglobal.com/shop/Script/search.asp>

ISO 1074:1991	Counterbalanced Fork-Lift Trucks - Stability Tests
ISO 2328:2007	Fork-lift trucks - Hook-on type fork arms and fork arm carriages - Mounting dimensions
<b>ISO 3691-5:2009</b>	<b>Industrial trucks - Safety requirements and verification - Part 5: Pedestrian-propelled trucks</b>
ISO 5053:1987	Powered Industrial Trucks - Terminology
ISO 6055:2004	Industrial trucks - Overhead guards - Specification and testing
ISO 6292:1996	Powered Industrial Trucks and Tractors - Brake Performance and Component Strength

ISO 10326-1:1992/Amd 1:2007	Mechanical vibration - Laboratory method for evaluating vehicle seat vibration - Part 1: Basic requirements - Amendment 1
ISO 10658:1996	Industrial Trucks Operating In Special Conditions of Stacking With Load Laterally Displaced By Powered Devices - Additional Stability Test
ISO 21281:2005	Construction and layout of pedals of self-propelled sit-down rider-controlled industrial trucks - Rules for the construction and layout of pedals
ISO 22915-2:2008	Industrial trucks - Verification of stability - Part 2: Counterbalanced trucks with mast
ISO 22915-20:2008	Industrial trucks - Verification of stability - Part 20: Additional stability test for trucks operating in the special condition of offset load, offset by utilization
ISO 22915-21:2009	Industrial trucks - Verification of stability - Part 21: Order-picking trucks with operator position elevating above 1 200 mm
ISO 22915-3:2008	Industrial trucks - Verification of stability - Part 3: Reach and straddle trucks
ISO 22915-7:2009	Industrial trucks - Verification of stability - Part 7: Bidirectional and multidirectional trucks
ISO 24135-1:2006	Industrial trucks - Specifications and test methods for operator restraint systems - Part 1: Lap-type seat belts (issued October 2006)
